bar 735 INTELLIGENT DISPLAY & 715 DISPLAY

■ MODEL 735 INTELLIGENT DISPLAY

The Model 735 Intelligent Display performs all of the functionsof the Model 745 High Accuracy Portable Standard with thefrequency inputs from one external Digiquartz® Transducer. Itcontains an intuitive Front Panel Menu System, IntelligentInterface Board, 2-Line Display, RS-232 communication port, tare capability, and transducer connection terminals.

The Model 735 is powered continuously from its AC adapter orfor up to 20 hours from our AA batteries. FREE Digiquartz®Interactive, Digiquartz® Assistant and Digi-quartz® Terminalsoftware are included to set up, configure, sample, plot and logdata from the Model 735.

Model 735 Intelligent Display

■ MODEL 715 DISPLAY

The Model 715 displays pressure and temperature data fromall Paroscientific Intelligent Transmitters that have Dual RS-232and RS-485 interfaces. The two-line, 16 character, alphanumeric, backlit, liquid crystal display is set up withtransmitter commands and includes software. Display functionsinclude pressure and temperature values with engineeringunits, overpressure warning, tare indicator, user-defined textmessages, and a horizontal analog bar graph showingpercentage of full-scale pressure.

The Model 715 will respond to display commands from thetransmitter, computer, or other serial host on either the RS-232 or RS-485 port. For stand-alone operation, it can display datawhenever power is applied to the transmitter. Set-up and dataacquisition software are included at no extra charge.

Model 715 Display

Althen — Your expert partner in Sensors & Controls | althensensors.com
Althen stands for pioneering measurement and custom sensor solutions. In addition we offer services such as calibration, design & engineering, training and renting of measurement equipment.
