# **MODEL EGAXT3** AUTHORIZED DISTRIBUTOR TRIAXIAL ACCELEROMETER

# **SPECIFICATIONS**

- **Miniature Triaxial Design**
- mV Output DC Response
- **Critically Fluid Damped**
- 10,000 g Over-range Stops
- **Broad Temperature Range**

The Model EGAXT3 miniature accelerometer combine a damping ratio of 0.7 (nominal) with built-in over-range stops that protect the unit against 10,000g shocks. This is ideal for applications which may experience rough handling or in situations where the accelerometer must survive a high initial overload in order to make a low g measurement.

The model EGAXT3 features a common piezo-resistive Wheatstone Bridge design with a mV output. The accelerometer incorporates an inline temperature compensation module which ensures accurate output over full operating temperature range.

# **FEATURES**

- Miniature Triaxial, Low Weight
- Static and Dynamic Measurement
- Frequency Response from DC to 3000 Hz •
- ±1% Non-Linearity •
- -40°C to +120°C Operating Range •
- 10,000g Over-range Protection

## **APPLICATIONS**

- Flight Test & Control •
- Launch Vehicles
- **Drop Testing**
- Impact & Shock Testing
- **Munitions Testing**
- **Pile Driving**
- Harsh Environments

### PERFORMANCE SPECIFICATIONS

All values are typical at +24°C, 80Hz and 15Vdc excitation unless otherwise stated. Measurement Specialties reserves the right to update and change these specifications without notice.
