TS2 Series Mini joystick

Features

- Smallest joystick
- 2 axis thumb controller
- Contactless hall effect technology
- Standard IP67 above panel
- Four actuator options

Applications

- Large hand grip joysticks
- Industrial remote controllers
- Armrest control panels

Description

The TS2 is the smallest 2-axis industrial joystick in the world and its operation principle is based on hall effect technology. Due to its very compact size and threaded mounting body, it can be easily mounted in small remote controllers, armrest control panels, and large cobra joysticks. The TS2 joystick comes with an elastomer actuator and standard IP67 above panel protection. Based on many years of experience, this joystick packs fantastic quality in a very small package.
